

Dickinson Refinery

Fact Sheet

REFINERY INFORMATION

Located four miles west of Dickinson, N.D. on approximately 318 acres, the Dickinson Refinery is the first refinery in the U.S. to be built in over 30 years. The refinery has a capacity of 20,000 barrels per day (bpd) and primarily processes domestic crude oil from North Dakota delivered by pipeline. The facility manufactures ultra-low sulfur diesel, naphtha and resid, which is marketed to local customers and utilized for further processing in Andeavor's integrated value chain system.

FAST FACTS

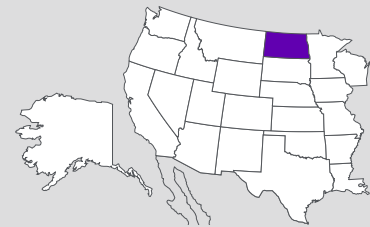

- Dickinson Refinery full-time employees: Approx. 80
- Crude oil capacity: 20,000 bpd

ENVIRONMENT

- The refinery is a state-of-the-art facility utilizing modern emission-control technology
- Utilizes recycled water from the City of Dickinson's wastewater treatment plant

COMMUNITY SUPPORT

- Has a long-standing history as a good corporate citizen in North Dakota and we are committed to working with our stakeholders to create cleaner, safer, well-educated communities where we operate
- Donated \$800,000 in charitable giving to non-profit organizations in the Northern Great Plains in 2016

COMPANY PROFILE

Andeavor is a premier, highly integrated marketing, logistics and refining company. Our retail-marketing system includes more than 3,100 stores marketed under multiple well-known fuel brands. We have an extensive logistics network, and operate 10 refineries with a combined capacity of approximately 1.2 million barrels per day in the mid-continent and western United States. We employ more than 13,000 talented people.
